

**Minutes.**  
The minutes of the October meeting of the Associate Reformed Synod were sent out last week.  
The minutes of the December meeting of the South Carolina Conference have been printed and are being distributed this week.  
The former was printed in Charlotte, N. C. The latter in Abbeville, S. C. Both are good jobs of printing.

**Unprofitable Visitors.**  
Last week Mr. J. E. McCracken, editor of the McCormick Messenger, and Mr. M. L. B. Sturkey, prohibitionist, were in town. Not having brought anything at the dispensary these gentlemen didn't help us build the new court house.

**Out of Plumb.**  
We have noticed in times past that some of our brethren of the press get further out of plumb than the tower of the Anderson Court house. If some of the prohibitionists come back to within six inches of the plumb we would call it straight up and let them go at that.

It is refreshing to note the unanimity with which the former opponents of the G. M. I. now urge the enforcement of the law in reference to the L. M. I's.

The time is on when our eyes will be weary by the sight of base ball news. Some sane men, however, read such stuff.

The defense in the Shaw case "rests," and now the people hope to rest.

A man in Chicago plastered the walls of his parlor with wall paper. Three wives have died within three years. Since the last death it has been discovered that the wall paper was poisonous. Wives had better have the walls of their houses "skimmed" or white-washed.

One of the most enjoyable receptions that has been given in Abbeville was given Friday evening by Mr. and Mrs. Edwin Calhoun in honor of their son Mr. Arthur Calhoun and his bride Miss Marie Thompson. In the parlor where the bride party received was a simple but beautifully decorated in white and green. The bride was becomingly dressed in a blue crepe elaborately trimmed with red lace. In the rear hall was placed the punch bowl graciously provided over by Miss Catherine Graves and Miss Louise DeBuhl. Miss Calhoun was seated in a pink and cream and Miss DeBuhl was charming in a princess gown of blue crepe. In the parlor of the Calhouns and Miss Edith Calhoun assisted in receiving. Miss Louise Calhoun received the guests in the dining room where Miss Sara Hawk, Miss M. G. Smith and Miss M. D. Smith were seated. The bride and groom were seated at the head of the table. ### A Most Remarkable Case.

**Greenville News.**

A New York female cook has been arrested on the charge of being a menace to public health and is being detained in one of the hospitals. It is a most unusual and as far as our information goes, an unusual case.

This woman is pronounced by learned doctors as a human "culture tube." It is declared that since the woman recovered from an attack of typhoid fever she suffered about six years ago, thirty eight persons who enjoyed her cooking have become victims of the dreaded typhoid. One of the remarkable things in connection with the case is that this so called human "culture tube" is buxom and robust, with rosy cheeks. She denies that there is anything wrong with her and is at the hospital against her will.

One of the specialists engaged in making examination of the case, who declares that it is unique in medical history, in speaking of his unusual patient said: "This woman left a trail of typhoid fever behind her. In the households where she was employed, no suspicion arose that she was a disseminator of the deadly germs until after a veritable outbreak of typhoid in several of her household. Tracing her case step by step. She is such a perfectly healthy looking person that no one would suspect her of carrying about a host of germs in her system."

According to two of the specialists who have tentatively examined the woman, she is in complete possession of a million or more germs, none of which, however, can do her the least harm. She is immune, though in every breath she takes she draws in and exhales a cloud of dreadful bacilli. The case will probably find its way into the courts if the friends and relatives of the woman attempt to rescue her, which would develop a new phase of the medico-jurispudence. Some of the families in which the woman cooked are already victims of typhoid. It is certain that every step of this most remarkable case will be followed with intense interest by the public at large.

### Letter to J. D. Miller.

Abbeville, S. C.

Dear Sir: If we sell Devoe to paint your town, your road won't have so much freight to handle.

It takes 10 gallons to paint a fair-size house, and that house won't want painting again for 5 or 10 years. That's true in a way; but people, you know, rather like fresh paint, and they paint for nothing but lower cost and time.

That house would take 12 or 13 gallons of almost any other paint than Devoe, and would have to be painted again in half that time. Ten years is a very long time for a paint to wear; and five isn't short.

Which makes the most freight, a 10 or 20 gallon paint? 5 or 10 year paint. But the 10 gallon paint is the 10 year paint; and the 20 gallon paint is the 5 year paint. Which makes the most freight?

Ask your paint dealer which he'd rather sell, and which he could sell most of. Ask your painter which he'd rather paint: whether good or bad paint is good for his business; which is good paint, the 10 or 15 gallon paint which pays most freight, and which pays most wages. Which will you buy yourself, the 10 gallon 10 year, or 20 gallon 5 year, paint?

Yours truly  
F. W. DEVOE & CO.
